UCDP Simple Actor List Cover Page

The actor list is a simple actor list containing the name (abbreviated and full) and ID of all armed groups listed in the current release (17.1) of the UCDP data.

The following columns exist:

ActorID	Integer
Name	Actor Name, short form
NameFull	Actor Name, long form

The file is available as either CSV (UTF-8) or Excel.

For the activity of the groups consult one of the following datasets:

UCDP Georeferenced Event Dataset 17.1 for global disaggregated (day-village) data on incidents/events of state-based and non-state battles as well as of one-sided violence (including fatality figures for each incident and links to actors, conflicts and dyads) (1989-2016)

UCDP/Prio Armed Conflict Dataset 17.1 for a yearly list of armed conflicts involving at least a state (1946-2016)

UCDP Dyadic Dataset 17.1 for a yearly list of dyads (pairs of actors) within armed conflicts involving at least a state (1946-2016)

UCDP Battle Related Deaths Dataset 17.1 for yearly fatality estimates of armed conflicts and dyads involving states (1946-2016)

UCDP Non-State Dataset 17.1 for a yearly list and fatality estimates of armed conflicts not involving any state (1989-2016)

UCDP One-Sided Dataset 17.1 for a yearly list and fatality estimates of episodes of one-sided violence (1989-2016).

Citation rules are available in each dataset's codebook.
